Community Support Series

Taking Care of our Own

“It Takes An Island…”
Dr. Ross Greene

Thursday October 26, 2017
at the Hall
5:30 p.m. to 7:30 p.m.

Dr. Ross Greene, world renowned expert on child development and psychology is coming to Chebeague! Come hear the educator, psychologist and founder of Lives In the Balance discuss his evidence based method that is helping caregivers, educators, parents and kids of all ages thrive in our community, where we all know it takes an island to raise a child.

Childcare and dinner provided.

From the website: "[The CPS model is] compassionate and effective. Ideas about treating all kids in ways that are non-punitive, non-adversarial, and collaborative, and that teach them skills on the better side of human nature." Find more free resources at www.livesinthebalance.org.

“So long as caregivers are solely focused on modifying a child’s behavior, the problems giving rise to that behavior will remain unsolved. But when caregivers focus instead on solving the problems -- collaboratively and proactively -- not only do the problems get solved, the challenging behaviors that are associated with those problems subside.”
-Dr. Ross Greene

"Children exhibit challenging behavior when the demands being placed upon them outstrip the skills they have to respond adaptively to those demands. The same can be said of all human beings."
-Dr. Ross Greene

The event is sponsored by the Chebeague Parents’ Association Community Support Series and the Chebeague Island School.
