

ART LAB ART SHOW

Thursday, February 9

4:45–5:45

The Niblic Gallery

Riley **Beaupre** Eva **Neuman** Kalie **Peck**
Catherine **Rich** Caleb **Todd**

The work in this show was completed by five Chebeague Island School students during Art Lab, an afternoon art enrichment program facilitated by art teacher, Louisa Wickard. Discussion topics during Art Lab included acrylic paints, brush variety and care, the work of Mark Rothko, transparent vs. opaque, shape, form, value, lighting, underpainting and glazing.

Each student made two paintings: a square abstract work utilizing learned techniques and a small work on canvas based on observation.

Students practiced talking about art during Art Lab and would appreciate the chance to talk more. Please feel free to ask the artists about their experiences in the program.
