

## South Rd. & Chandler's Cove Rd. Culvert Replacement & Paving

Due to wet summer weather and changes in project management with the Town's paving contractor the reclamation and paving work scheduled for South Road and Chandler's Cove Road this fall has been delayed. Work by the contractor will commence in the spring, and will be in accordance with the original specifications. The ditching and culvert work already completed by our Town crew will be prepared for winter with proper erosion control. As the start date approaches additional information will be posted.

Please call the Town Office with questions at 846-3148, and thank you for your patience.
