

Chebeague Pre-K- Transitional K News – October 16, 2009

Our focus this week was fire safety. Early in the week we practiced "if your clothes catch on fire to stop, drop, and roll." It was presented as a beach campfire scenario. When we talked about fire safety in the home the emphasis was on stay low and go, and get out, and stay out. We also talked about the importance of a family meeting place. Each shared their spot but I encourage you to review this with them and also to share it with all who might visit your house throughout the year. A big thank you to Ginny Ballard from the Chebeague Fire Department who joined our class at first circle on Friday to review, practice, and answer questions.

Friday also found us out in the garden harvesting the moon pumpkin, potatoes and broccoli. We talked about the plant parts we eat and tasted the broccoli with mixed enthusiasm at lunch. The pumpkin provided a scooping exercise but did not produce enough seeds for us to roast up. You can follow up the plant parts we eat and where our food comes from at home meal times. Thanks to Bob Earnest for his ongoing efforts with the children in the school garden.

Following are some of the lessons, which were presented to all either at circle or individually. Other lessons are given individually based on the child's interest and/or readiness.

Practical Life/Art

- Orange rice is the new substance for pouring and scooping
- Twisting - partnering various nuts and bolts
- Finger painting on paper

Sensorial

- Blue triangle box - Various shapes and sizes of triangles to match, flip, and arrange to make other geometric shapes.

Math

- Fire fighter equipment number sequencing work

Science

- Plant/Animal picture sort
- Assemble a plant - roots, stem, branches, leaves, flower
- Parts of a plant puzzle (roots, stem/trunk, branches, leaves)

Language

- Handwriting #2
