

Mentoring Program for Chebeague Island

Chebeague Island School Committee goal established before the 2008-2009 year: Encouraging post secondary education for all of our students, financial support for higher education, and mentoring program for supporting secondary education and post secondary education.

Mentoring program for Post Secondary Education

To establish a means for students, parents, community members to access materials, information, and human resources for furthering their education.

Materials and Resources:

Deb Bowman has numerous books and resources about colleges, scholarships and careers at the Chebeague Island Library.

List of people on Chebeague Island who are willing to help with various aspects of college searches, scholarships, writing prompts, financial aid, interviews etc. Students, parents and community members are encouraged to seek out help from these people who would love to work with you or your children to achieve success in their future.
